Mr. Gary Baughman
Hazardous Waste Facilities Unit Leader
Colorado Department of Health
4210 East 11th Avenue
Denver, Colorado 80220

Gentlemen:

In response to your June 30, 1992 letter concerning our extension request for Operable Unit 1 (881 Hillside) Draft Remedial Investigation Report, we accept the October 28, 1992 revised Interagency Agreement milestone date.

In accepting this extension, we agree to increase the involvement with you in the baseline human health risk assessment and the environmental evaluation based on a series of working level meetings that are identified in the attachment. This attachment identifies five tentative meetings for the human health baseline risk assessment and five meetings for ecological evaluation baseline risk assessment.

We also agree to the submittal dates of Technical Memorandum (TM) as follows:

TM6: Exposure Scenarios (Revised)	July 10, 1992
TM7: Model Descriptions	July 17, 1992
TM8: Contaminants Identification	September 9, 1992
TM9: Toxicity Parameters	September 23, 1992

As we approach the October milestone date, we will want to pursue extension of subsequent milestones for OU1. If you have any questions, please contact Scott Grace at 966-7199.

Sincerely,

James K. Hartman
Assistant Manager
for Environmental Management

ATTACHMENT (92-DOE-7490)

Tentative Meeting Schedule for the OU1 Human Health Baseline Risk Assessment

July 16, 1992	Preliminary identification of contaminant of concern for groundwater and surface soils.
July 31, 1992	Data analysis, aggregation and quantitation issues.
August 6, 1992	Quantitative aspect of exposure analysis.
August 20, 1992	Quantitative aspects of uncertainty analysis.
September 4, 1992	Toxicity assessment aspects.
	Other meetings to be scheduled as necessary.

Tentative Meeting Schedule for OU1 Ecological Evaluation Baseline Risk Assessment

July 7, 1992	Plant and animal population data; diversity data, status of ecosystem.
July 30, 1992	Review of criteria used to select COCs and target taxa; review of criteria application.
August 27, 1992	Derivation of FRVs; discuss FRVs for tissue body burden values; interpretation of body burden data.
September 17, 1992	Data evaluation matrix application.
October 1, 1992	Wrap-up meeting; how data was used; how data was not used; lessons learned.
